

LAVISH VERMA

lv909191@gmail.com | 6264515286 | [Linkedin](#) | [Github](#)

OBJECTIVE

Enthusiastic and driven aspiring data scientist with a passion for data analysis, machine learning, and solving real-world problems. Eager to contribute to impactful projects and grow through continuous learning in a collaborative, innovative environment.

EDUCATION

Bachelor of Technology (B.Tech) in Computer Science and Engineering 2022- Present
Specialization: Artificial Intelligence
Mandsaur University

CBSE BOARD CLASS XII 2021-2022
Mahaveer Jain National School

SKILLS

Technical Skills	• Languages: C++(Proficient),Python • Database: MySQL • Data Science: NLTK, NLP, Standard ML Algorithms(Regression, Classification, Clustering) • Data Analysis: Numpy, Pandas, Matplotlib • RDBMS, Data Structure, OOPS
------------------	--

Soft Skills	Leadership , Problem Solving , Critical thinking , Teamwork , Adaptability
-------------	--

PROJECTS

Real Estate Price Prediction – Data Science

Python, Pandas, Scikit-learn, GridSearchCV, Pickle

- Built a regression model to predict Bengaluru housing prices using cleaned and engineered data.
- Visualized trends with matplotlib, encoded categorical features, and created new features (e.g. BHK,price_per_sqft).
- Tuned models (Linear, Lasso, Decision Tree) using GridSearchCV and deployed via Render using Pickle.

Emotion Detection – GenAI Life OS

Python, Scikit-learn, NLTK, TF-IDF, Logistic Regression

- Designed a multi-label classifier to detect 28 emotions from user inputs using OneVsRest with Logistic Regression.
- Preprocessed text using NLTK (tokenization, stopwords, lemmatization) and vectorized with TF-IDF.
- Tuned hyperparameters with GridSearchCV and evaluated with F1-score and classification report.

ACHIEVEMENTS

- **Solved 350+ problems** on Codechef, Leetcode, Hackerrank, Interviewbit, and SPOJ.
